

Notes for the Patients of Injection and Infusion

1. Please informed your allergic history before a skin test or infusion; do not leave the room in 15-minute for observation after a skin test by nurse.

2. The patient who is being treated is not allowed to leave out, e.g. carrying out infusion set, all consequences should be assumed by the guardian, the patients themselves or their families.

3. It is not allowed to adjust the speed of infusion by patients or their families; please press the infusion tiny hole for 3-5 minutes after needle extraction; patients could not be allowed to leave out within 15-minute observation after venous transfusion or sensitizing drug injection.

4. Each injection must be operated with a transfusion sheet issued by doctors or an intramuscular injection sheet which should be kept by patients after treatment.

5. No smoking, no entertainment activities such as playing cards, chess, and keep quiet in injection room.

6. Hazardous substances would be prohibited from carrying into injection room; please take care of your personal belongings.

7. Please take good care of the public facilities in the room; keep the room clean and tidy, no spitting and no littering.

8. Mind your words and behaviors in injection room.
